

TW35S

PRODUCT RELEASE

SCREAMERS

Earthquake Neo tweeters deliver the SPL to keep up with the rest of your Earthquake system. Made with real silk, Neo tweeters are thin but strong. They use floating rubber suspension mechanisms, aluminum voice coils, and silk dome diaphragms for the most clear and accurate sound. Installation is made easy with Earthquake's patented Turn-N-Lock devices that allow flush, surface and angle mounting.

FEATURES

- 1.5" / 35mm high definition tweeter with silk dome for smoother highs
- 300 Watts Max
- 18dB/Octave high pass filter
