

# THEIA

## Center Channel Speaker

Model:  
Titan Theia

**THEIA**

(H) Height	5-3/4" (146mm)
(W) Width	19-2/5" (493mm)
(D) Depth	12-1/2" (318mm)

### INTENDED USE

- ✓ Custom Installers & Retailers
- ✓ Home Theater & 2-Channel Music Systems
- ✓ Recording Studio

### OBJECTIVE

Titan Theia is the center speaker of the Titan line. Designed to perfectly compliment the Telesto and Tigris floor-standing speakers. It is also ideally suited as an upgrade in other high quality systems needing a true full range center speaker. Capable of thundering dynamics and deep lows all while remaining perfectly composed, detailed and harmonic.

Very few center speakers live up to the acoustic performance of the stereo speakers they are paired with. The Theia ups the ante on performance by an order of magnitude by incorporating several advanced core Earthquake technologies.

Titan Theia's exterior surface is made of deep luxurious black, glossy piano lacquer. The elegant finish complements the design and sculpturally adds sophistication and exclusivity to any decor.

### SPECIAL FEATURES & HIGHLIGHTS

- 4" Kevlar cones + Piston-Max patented technology
- Two 1" wide band silk dome tweeters
- Gold plated dual screw terminals (not bi-ampable)
- AASD (Acoustic Array System Design) technology for controlled coverage.
- Magnetically shielded drivers
- SLAPS (Symmetrically Loaded Audio Passive System)
- Adjustable rear spike for better speaker aim
